

Welcome to the library of FH-Koblenz!

FACHHOCHSCHULE
KOBLENZ
University of Applied Sciences

In our library everyone can lend out books. We've got over 70.000 volumes in our lower floor at the moment. Upstairs we provide a lot of journals and periodicals. You also can order books from other libraries.

You can search for them in our OPAC (Online-Public-Access-Catalogue). There you can also see if a book is in the library or actually lend out. If it is lend out you can order it and we will inform you when it arrives. It shows you the signature, too. This will help you to find books easier. The loan period is 4 weeks and can be extended unless the book is reserved by another user.

For using our service you need an account which will be set up for you at the library's desk. Please bring your identity card or passport and your FH student ID.

Every Wednesday we offer a guided tour (in German) where we explain the system. It starts at 10:00 am. Please register in advance.

We've got 3 rooms where students can learn in groups. They can choose between 4, 8 or 12 working places. We also provide computers in the library where students can do research on the internet.
