

# JEWISH CEMETERY PFLAUMLOCH

## NEW GRAVE LIST OF 2012

VERSION 02

based on Gert Wildensee's notation of 1990 + 1995 sponsored bei Landesdenkmalamt Baden-Wuerttemberg

put into new order and completed with additional genealogical details by Rolf Hofmann ([HarburgProject@aol.com](mailto:HarburgProject@aol.com))

Gerd Wildensee's numerical order of graves was noted blockwise (left + right) and thus doesn't reflect the original order of graves, so a new list of 2012 was organized by numbering the graves row by row. "Old" numbers refer to a another list of 53 graves originally compiled around 1855 with hebrew transcriptions. As 20 of these grave inscriptions in the meantime have turned illegible it's hard or even impossible to identify some of the deceased. But anyway the wealth of genealogical details gathered from various sources may be of great help for descendants in identifying still existing ancestral graves.
